

360PRO uses gentle sonic vibrations to give you a professional\* clean

Our sonic power technology gives over 40,000 gentle brush strokes per minute, polishing and brightening your smile and removing plaque and bacteria from those hard to reach areas between teeth and under the gum line.

Brush strokes per min:

- Manual brush - 300 brush strokes.
- Electric rotating toothbrush - between 2,500 - 7,500 brush strokes.
- **360PRO Sonic toothbrush - over 40,000 brush strokes.**

## WHY USE A SONIC BRUSH?

The speed of movement and coverage of brushing are the predominant factors in preventing tooth decay. Sonic toothbrushes use vibration through wave technology to power water, saliva and toothpaste into areas between teeth and below the gum line.

The presence of liquid and bubbles around the speeding brush adds fluid dynamics that reach further than the brush, to clean hard-to-reach areas that conventional brushes can't.

### WHAT YOU'LL GET:

- 1x Sonic toothbrush (black or white)
- 2x Brush heads
- 1x Inductive charging base
- 1x User manual

Sonic enhanced toothbrush.

**40,000 Brush Strokes**  
Over 40,000 brush strokes per minute.

**Inductive Charging**  
Modern inductive wireless charger.

**Waterproof**  
IPX7 waterproof standard.

Water flossers are proven to be more effective than traditional flossing.

Our stylish and slimline water flossers operate at 1400-1800 pulses per minute and have three modes: normal, soft & pulse. They're extremely user-friendly, remembering the last mode used.

### How to use your Waterflosser:

It's simple! Fill the reservoir with water and choose your desired pressure and mode. Lean over your sink and close your lips slightly around the jet tip to avoid the water spraying out.

Aim the flosser tip at your gumline, slowly working your way around your mouth. When finished, turn off your flosser & drain the remaining water from the reservoir.

## WHY USE A WATER FLOSSER?

Water flossers are proven to be more effective than traditional flossing. Not only is water flossing easy and quick, it also reaches those places you can't always reach with string floss. Water flossing helps remove plaque and bacteria, for healthier teeth, gums and breath.

### WHAT YOU'LL GET:

- 1x Plug-in Water flosser
- 5 x Specialised jet tips
- 1x User manual

**OR**

- 1x Cordless Water flosser
- 2x Jet tips
- 1x Power adaptor
- 1x User manual
