Product catalogue 2021/2022

Sustainable choice

Promoting good oral health since 1965

A vision of healthy smiles for life runs throughout our history. In 1965, woodcarver Henning Eklund found an innovative solution for interdental cleaning by developing the triangular interdental stick in collaboration with professors at the School of Dentistry in Malmö, Sweden. Henning Eklund's business idea, to promote good oral health in collaboration with dental experts, became a successful concept.

Today, TePe's products and solutions are recommended by dental professionals and used by consumers in over 80 countries. We continuously evolve our comprehensive range in line with customer needs and research within life science. We are dedicated to improving people's quality of life and taking environmental responsibility in all aspects of our work.

30 Areas of use

Some products have symbols that describe which areas of use it is suitable for and also which packaging types it is available in.

Here is a reference guide for all symbols:

Areas of use:

Basic oral care suitable for healthy patients

Suitable for small children and/or juniors

Suitable for patients with braces

Suitable for patients with implants

Suitable for patients with gingivitis/ periodontitis

Packaging:

Blister

Bag

Box

Sustainable products:

All our sustainable products are marked by a green leaf

Sustainable products with the same unbeatable quality!

TePe has taken on the challenge to reach for carbon neutrality in products and packaging in 2022. By introducing biobased material on the GOOD toothbrushes and certified renewable material in our range of interdental brushes, we have taken substantial steps in lowering our carbon footprint. We are committed to transfer all our products into sustainable materials, and we will do this without compromising on quality and function.

A choice that matters

TePe Share

Sharing and collaboration with the dental profession has been a key element in our success from the very beginning and we want to continue this partnership to bring you the best in oral health care. We believe that the path to growing the awareness of the importance of oral health lies in listening, learning and sharing insights.

We share a passion for knowledge

From our foundation in 1965, we have worked closely with dental professionals with the vision to bring healthy smiles for life by inspiring good oral health. We now invite partners, customers and users to collaborate and share knowledge and experience.

Through TePe Share we bring you tutorials, newsletters, odontological research, webinars and much more. It is a place to be informed, inspired and educated. For your personal development – and shared for the good of all.

Interdental cleaning

TePe has a long tradition of developing products for preventive oral care with a special focus on interdental cleaning. Our range offers a variety of options to facilitate daily interdental care for all.

TePe Interdental Brushes

Interdental brushes are highly effective in removing dental plaque between teeth. We have developed ours in collaboration with dental experts to certify the highest efficiency, comfort and quality.

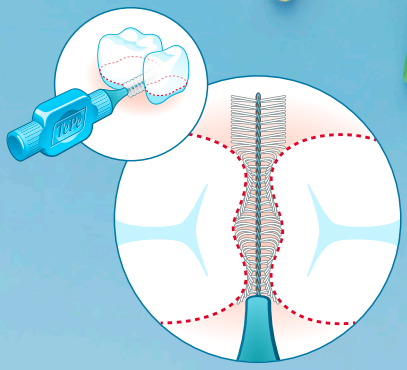
The wide TePe Interdental Brush range offers an option for everybody – multiple sizes, two filament textures and two handle lengths with a straight or angled brush head.

The brushes comply with the international standard for manual interdental brushes (ISO 16409) which stipulates nine sizes, 0-8. We offer colour coded brushes in all nine sizes to cover the wide span of interdental space varieties.

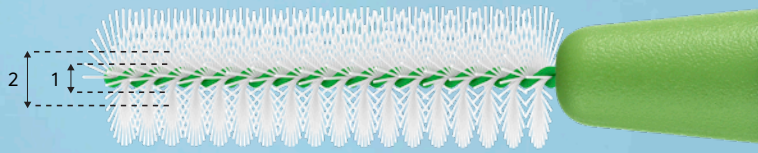
Original	●	●	●	●	●	●	●	●	●
Extra soft		●	●	●	●	●	●		
Angle	●	●	●	●	●	●			
Colour	Pink	Orange	Red	Blue	Yellow	Green	Purple	Grey	Black
ISO size (0-8)	0	1	2	3	4	5	6	7	8
Wire size (mm)	0.4	0.45	0.5	0.6	0.7	0.8	1.1	1.3	1.5
PHD (mm)	0.6	0.7	0.9	1.1	1.3	1.6	2.0	2.6	3.4

The ISO size is based on the measurement of the smallest hole which the brush can pass through, the passage hole diameter (PHD).

1 = Wire size 2 = PHD size

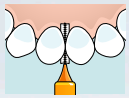


An interdental brush also cleans the concave surfaces between teeth and is therefore more efficient than other interdental cleaning products.



TePe® Interdental Brush Original

- The most effective way to remove plaque between the teeth.
- The user-friendly handle offers a stable grip which enables cleaning with controlled movements.
- The smaller brush sizes (0-3) have a flexible neck for increased durability and access. The larger brush sizes (4-8) have a thicker bendable wire.



Interdental.

Sizes 0-3, curve the flexible neck for access between the posterior teeth.

Missing tooth.

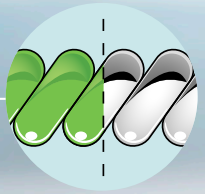
Sizes 4–8: Curve the wire for access between the posterior teeth.

TePe® Interdental Brush Original is also available in Mixed Pack.

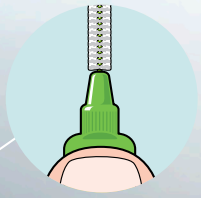
The plastic cap can be used for hygienic protection or to extend the handle.

98%

98% maximum filament coverage for safe and efficient cleaning.



Plastic coated wire and rounded tip for safety and comfort.



Ergonomic handle for a stable grip.

A choice that matters

By replacing fossil raw material with fossil-free pine oils, we have reduced the carbon footprint of this interdental brush by 80% – without compromising on product quality, efficiency or design.

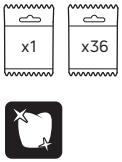
Ideal on-the-go

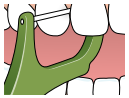
A handy pocket case for TePe EasyPick™ is included for easy cleaning on the go. Convenient and portable for everyday use.

TePe GOOD Mini Flosser™

Size: For narrow spaces

- Pre-loaded dental floss holder for easy and convenient use.
- Strong, thin teflon free floss with a handle made from sugar cane and wood fibres.
- Unique designed bite plane that helps to gently insert the floss.





Insert the floss by gently biting onto the bite plane.

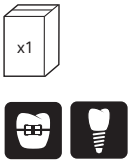
We are committed to sustainable packaging

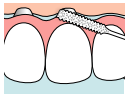
We are using FSC branded paper and recycled cardboard. Our plastic packaging is made from either partly recycled material or renewable material. All packaging is 100% recyclable.

TePe® Bridge & Implant Floss

Amount: 30 pcs

- Invaluable for cleaning implants and bridges, also suitable for braces.
- The short length and sturdy ends eases insertion and use.
- Spongy, flexible filament floss, also suitable for sensitive gums.



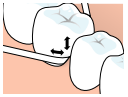


Implant-supported bridge.

TePe® Dental Tape

Size: For narrow spaces
Length: 5 m / 40 m

- Strong and durable floss.
- Wide, flat and waxed floss with a fresh mint flavor.
- Glides easily between teeth without shredding.



Gently move the tape along each tooth surface.

Practice box

- Practical storage of TePe's interdental brushes in the dental practice.
- 8 removable trays for IDB Original and Extra Soft, and 4 trays for TePe Angle. Each tray holds 15 brushes.
- A useful information chart with brush sizes comes with the box.

IDB Original /Extra Soft x1

TePe Angle™ x1

TePe® Gingival Gel

Size: 20 ml

- Contains chlorhexidine to fight bacteria, and fluoride to strengthen teeth.
- Easy to apply, is non-abrasive and protects sensitive root surfaces.
- Mint flavour and smooth formula, pleasant to use.

x1 x1

Use the cap as a bowl to apply gel.

TePe® Travel Case

- Practical travel case for TePe® Interdental Brush, TePe GOOD Mini Flosser™ or TePe EasyPick™.
- Air holes to allow filaments to dry.
- For hygienic storage during traveling or on the go.

x1

Toothbrushes

TePe's user-friendly toothbrushes are developed for efficient and gentle plaque removal. A variety of models and sizes facilitate daily oral care for adults and children.

Size: Mini
Bristles: Extra soft & soft

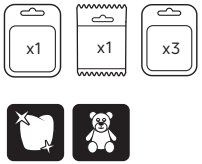
- Recommended from the first tooth.
- Tapered small brush head and end-rounded filaments for efficient cleaning.
- Available with or without charming prints created by Swedish Isa Form.



Imprinting service

Personalise your own toothbrush with TePe's imprinting service – an excellent marketing opportunity for dental practices.

Logotypes, images and messages can be printed on our GOOD, Select, Select Compact, Colour Compact and Mini toothbrushes. Choose between a variety of different handle colours and print colours for amazing designs.

1 black | # 2 purple | # 4 midnight blue | # 5 light blue | # 7 turquoise | # 8 apple green

9 coral | # 11 red | # 12 pink | # 13 yellow | # 14 light pink | # 15 white

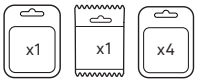
NEWS! GOOD brushes for imprinting

17 GOOD green | # 18 GOOD yellow | # 19 GOOD turquoise | # 20 GOOD light pink | # 21 GOOD orange | # 22 GOOD purple

TePe Supreme™

Size: Regular
Bristles: Extra soft & soft

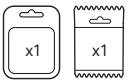
- Efficient cleaning due to the longer, tapered bristles.
- Unique two-level filament design for excellent reach.
- Easy-grip handle with thumb pad for extra comfort.



TePe Supreme™ Compact

Size: Compact
Bristles: Extra soft & soft

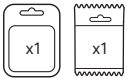
- Unique two-level filament design for excellent reach.
- Easy-grip handle with thumb pad for extra comfort.
- Suitable for children or for adults who prefer a smaller brush head.



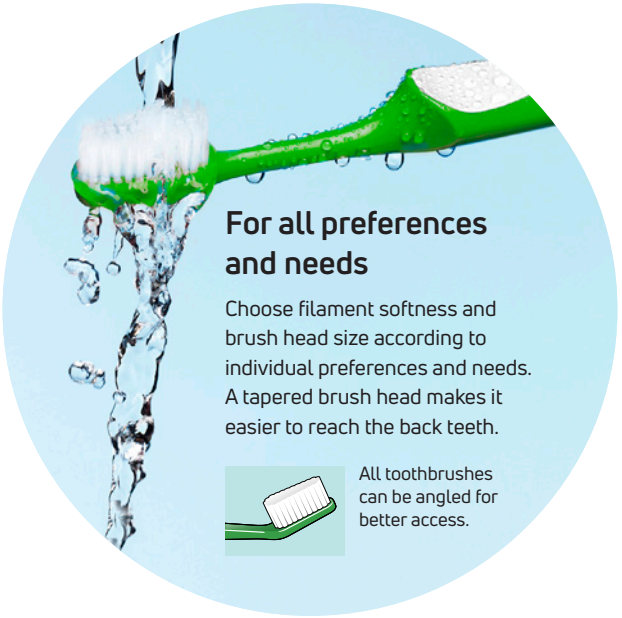
TePe Nova™

Size: Regular
Bristles: Extra soft (pink), soft (yellow) & medium (blue)

- Easy-reach tip for access to hard-to-reach areas, especially around the back teeth.
- End-rounded filaments ensure gentle cleaning.
- Easy-grip handle with thumb pad for extra comfort.



Longer tip for improved access to back teeth.



For all preferences and needs

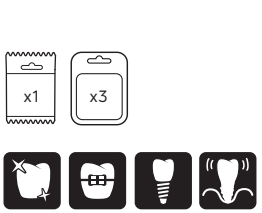
Choose filament softness and brush head size according to individual preferences and needs. A tapered brush head makes it easier to reach the back teeth.

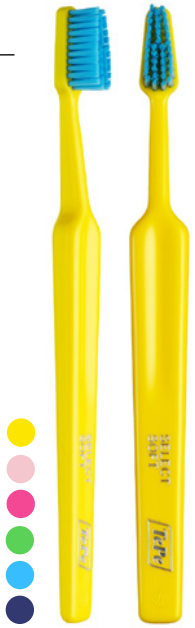
All toothbrushes can be angled for better access.

TePe Colour™

Size: Regular
Bristles: Soft

- Tapered brush head for easy access.
- End-rounded filaments for gentle and efficient cleaning.
- Choose between pink, green or turquoise filaments in combination with different handle colours.

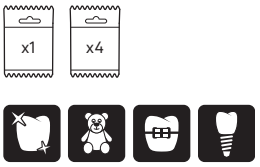




TePe Colour™ Compact

Size: Compact
Bristles: Extra soft

- Tapered brush head for easy access.
- End-rounded filaments for gentle and efficient cleaning.
- Suitable for children or for adults who prefer a smaller brush head.



TePe Classic™

Size: Regular
Bristles: Extra soft & soft

- User-friendly handle.
- End-rounded filaments.
- For those who prefer a bigger brush head.

TePe PlaqSearch™

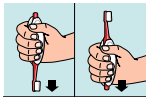
Size: 10 tablets/per package

- A disclosing product for quick and simple self-check identification of plaque.
- Two different colour indicators.
- Teaching aid for better oral health.

Differentiates new (red) and old (blue) plaque.

Extra Grip

- Provides a comfortable, stable grip which helps patients with reduced manual dexterity.
- Weighs only 30 grams. Fits TePe Select™, TePe GOOD™ toothbrushes and most of our special brushes.
- Easy to insert and remove by tapping the toothbrush handle on a hard surface.



Insert/remove the brush by tapping the handle against a table, for example.

Brush Head Cap

Size: Fits all toothbrushes and special brushes

- Small, practical travel cap.
- Air-holes ensure quick drying of the brush.
- Suits all TePe toothbrushes (except the Denture Brush).

Special products

TePe offers a wide range of cleaning devices developed for individuals with specific oral hygiene needs. Close collaboration with dental professionals ensures excellent functionality and a high level of quality. All products are clinically tested and evaluated.

TePe Universal Care™

Size: Regular

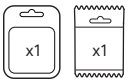
- A unique angle provides easy access to the lingual and palatal surfaces of teeth and implants.
- Facilitates cleaning in narrow and hard-to-reach areas.
- End-rounded filaments to ensure a safe and gentle clean.

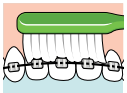
The angled neck facilitates cleaning inside surfaces.

TePe® Implant Orthodontic Brush

Size: Regular

- Extra slim brush head for improved access.
- Optimal for cleaning buccal implant surfaces or orthodontic appliances.
- Long and thin neck for better access.



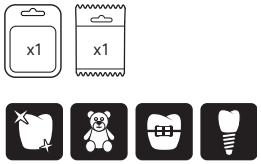


Efficient cleaning around brackets and wire.

TePe Compact Tuft™

Size: Regular

- Optimal for precision cleaning.
- Dome-shaped brush head with dense rounded tuft.
- Ideal for cleaning along the gumline, on the occlusal surfaces of emerging teeth, or impacted wisdom teeth.



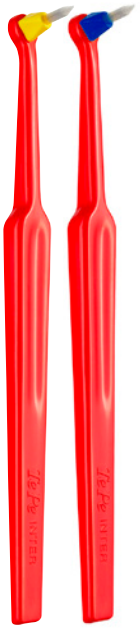
Cleaning along the gum line.

TePe Interspace™

Size: Regular
Bristles: Soft (yellow) & medium (blue)

- Cleaning behind furcations, implants, fixed braces or the last tooth.
- Brush tip can be attached to either side of the neck for different angles.
- Comes with 12 replaceable brush tips.

Ideal for cleaning behind the last tooth.

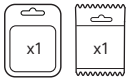


TePe Special Care™

Size: Regular & Compact
Bristles: Ultra soft

- 12.000 (Special Care) and 7.000 (Special Care Compact) ultra-soft filaments for delicate cleaning.
- First brush stage after oral surgery.
- For patients with extremely sore and delicate tissues, as a result of trauma, radiotherapy treatment and after oral surgery.*

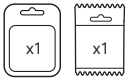
* It is always the dental professional who decides when it is suitable to start brushing after oral surgery



TePe Gentle Care™

Size: Regular
Bristles: Super soft

- Super soft filaments for gentle cleaning.
- Second brush stage after oral surgery.
- For patients with dry mouth, sensitive root surfaces and sensitive oral tissues.



TePe® Denture Care

Size: Regular

- Efficient and safe cleaning of removable dentures.
- Brush head can be bent backwards for improved grip and accessibility.
- Designed to resemble a regular toothbrush.

x1

Long, strong filaments for efficient cleaning of dentures.

TePe Dental Model

- For patient demonstration and instruction.
- The dental model shows crowding, different interdental spaces, furcation, an erupting wisdom tooth and tooth loss.

Compact tuft on the image not included.
Delivered in a brown hard paper box.

x1

TePe GOOD™ Tongue Cleaner

- Three blades for a triple cleaning effect.
- Helps prevent bad breath (halitosis).
- Removes bacteria in a few strokes.
- Dishwasher safe.

x1

Place far back and slide forward. 1-2 strokes recommended.

Green energy

All our products are produced by using green energy from renewable resources, partly from our rooftop solar panels. We produced 2,8 million toothbrushes during 2019 using energy from our solar panels.

Marketing & display material

TePe offers a range of material for demonstration and information to aid oral hygiene advice. Our product racks are perfect for display and storage.

Table display with rotating function, 8 hangers. Height: 53 cm. Width: 20 cm. Depth: 34 cm.

Healthy gums

Thorough oral hygiene is essential for maintaining healthy gums and preventing periodontal diseases. Motivating the patient and recommending the appropriate cleaning devices are key factors for efficient self-care.

TePe® Interdental Brush
Efficient cleaning between teeth.

TePe Angle™
Cleaning between teeth from the inside.

TePe EasyPick™
Interdental cleaning on the go.

TePe GOOD Mini Flosser™
Facilitates cleaning of narrow spaces.

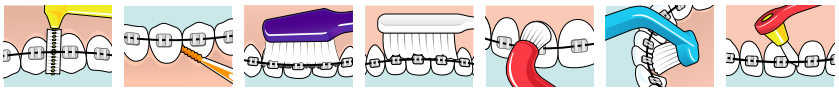
TePe® Dental Tape
Flat, wide and waxed for efficient plaque removal.

TePe® Gingival Gel
Use when mechanical cleaning is not enough

TePe PlaqSearch™
A two-tone disclosing product to visualise plaque.

Orthodontic care

Fixed orthodontic appliances make cleaning more complicated. Plaque rapidly accumulates around brackets, bands and wires. To prevent gingivitis and caries, systematic cleaning is essential.



TePe Angle™
Cleaning under the wire.

TePe EasyPick™
Easy cleaning under the wire or the retainer.

TePe Supreme™ Compact
Facilitates access around orthodontic appliances.

TePe® Implant Orthodontic
Efficient cleaning with a slim brush head.

TePe Compact Tuft™
The rounded tuft reaches around brackets.

TePe Universal Care™
The angled neck facilitates cleaning the inside surfaces.

TePe Interspace™
Easy cleaning with the tapered brush tip.

Implant care

Proper care of implants is vital for long-term success. Professional guidance on good oral hygiene habits and suitable products is of great importance to prevent the development of peri-implant mucositis and peri-implantitis.

TePe® Interdental Brush
Cleaning between implants.

TePe EasyPick™
Strong and flexible for efficient and gentle cleaning.

TePe Compact Tuft™
For thorough cleaning at the implant site.

TePe Universal Care™
Angled neck facilitates cleaning from the lingual/palatal sides.

TePe® Implant Orthodontic
Cleaning of an implant-supported bridge.

TePe® Denture Care
Long, strong filaments for efficient cleaning of dentures.

TePe® Bridge & Implant Floss
Spongy filament floss for cleaning around implants.

Paediatric care

Establishing good oral hygiene routines at a early age is the first step to a healthy mouth throughout life. Once the first tooth emerges, it is time to start using a toothbrush.

TePe Mini™
Extra small brush head, recommended from 0-3 years.

TePe Select™ Compact
Suits children from 3 years and up.

TePe Supreme™ Compact
Filaments in two levels. Suitable from 6 years.

TePe Special Care Compact™
Ultrasoft filaments, recommended after trauma.

TePe Compact Tuft™
Facilitates cleaning of emerging molars.

TePe GOOD Mini Flosser™
Children with high risk of caries need to clean interdentally.

TePe PlaqSearch™
Convenient tool for teaching methodical brushing to children.

To bring healthy smiles for life, by inspiring good oral health

TePe Munhygienprodukter AB is a Swedish company founded in 1965. In line with our vision of long-term oral health, we aim to raise awareness of preventative dental care and the connection between oral and general health. Our high-quality, functional products are developed in collaboration with dental experts. All design, development and production take place at the headquarters in Malmö. The products are marketedby subsidiaries in eight countries and distributors in over 80 countries and available primarily through dental practices, pharmacies and retail.
